SUDDEN DEATH. Lloyd Filimore, a Prominent Colored Man, Expires from Heart Disease.

At 2 o'clock this afternoon Lloyd Fill ore, an aged and prominent colored man, of Front street, died of heart disease at the office of Dr. John H. Rodgers, where he had been brought by the patrol wagon. The remains were removed to the late residence

of the deceased. Fillmore was a brickmason by trade, and as employed on the residence of General A. S. Bushnell, east High street. He courtended to the public in general, it is highly plained of feeling ill, and started down town, but was compelled to sink down in tront of the residence of Mr. I. B. Rawlins, on east High street. He soon afterward became unconacious and died within balf an hour after the attack. A great crowd surrounded the physician's office, and the report went abroad that his death had been the result of a fall from a scaffold. Fillmore lived had in Springfield for twenty years and was a quiet, industrious man. He was color-bearer of the Bushnell Guard and ook an active interest in military offairs. He was originally an Alabami slave, who with a large party of others was liberated by his master, brought to Spring-field and given land, which he afterwards

THE DEMOCRATIC DAILY.

More Pre-Natal Enthusiasm by the The Jefferson club held a meeting last night to receive reports of members who had been canvassing for subscribers to the proposed democratic daily paper. The meeting was large and animated. The names of about one thousand subscribers to the paper were handed in from this city alone, and the reports from the small towns throughout the county were very encour sging. Taken all in all, the reports were so satisfactory to the club that a committee of four, consisting of John Kinnane, F. M. Hagan, George W. Netts, and President Thomas, was appointed to select from ten to fifteen promment democrats of the city to give shape to the new enterprise, and to make and com-plete the arrangements necessary to issue the paper. Of course, all these new sub-scribers will stick right along and pay up

every cent they owe.

The committee on arrangements for the ratification meeting to be held next Monday evening reported that Mr. Bolin, the democratic candidate for congress in the Eighth district, would be present on that on, and that several other democrats had been invited to attend, but had not yet responded. The committee was instructed to engage one of the opera houses in which to hold the meeting. The club will form in line promptly at 8 o'clock, and march to the opera house. The club is increasing its membership, eighty-three new members be-ing taken in last night.

PROTECT OUR BREAD.

The machinery of the law cannot be put at work too speedily or too vigorously against the wholesale adulteration of the things we eat. Both the health and the pockets of the people demand

There is no article of food in general use more wickedly adulterated than the lower grades of baking powder.

For raising bread, biscuit or other food only the very best and purest baking powder should be employed The use of the ordinary cream of tartar, or of baking powders containing lime, alum and phosphates, carries deleterious ingredients into the food to the prejudice of the life and health of the consumer.

The sale of adulterated baking powders has been prohibited by statute in several localities. It will be in the interests of the public health when their sale is made a misdemeanor everywhere, and the penalties of the law are rigidly enforced.

The ordinary baking powder contains either lime, which, introduced into the system in too free quantities, causes serious disorders of the kidneys; alum, a corrosive poison, or lime phosphates, which are condemned by physicians as deleterious in their effect when taken under certain physical conditions. The Royal is the only baking powder on the market that is free from lime, alum and phosphates, and absolutely pure.

The absolute purity of the Royal Baking Powder makes it pre-eminently the most useful and wholesome leavening agent known. Containing no lime, alum, phosphate or other impurity, it leaves no alkaline or other residuum in the food, and its use always insures pure, light and sweet bread, biscuit and cake, that are perfectly digestible and wholesome whether hot or cold, fresh or stale. Its leavening power has been determined the highest whenever tested by official authority, and all chemists and writers on food hygiene commend it for its sterling qualities.
